CISO Core Professional Attributes

Integrity

Integrity is a personal attribute that demonstrates the power to carry out professional activities in an honest, professional and ethical manner. It's key to engender a climate of trust and fairness in all dealings.

Stamina

Stamina is the ability of working at or approaching max efforts, therefore everything else feels easier because there's less effort recruitment and energy expenditure.

Commitment

Commitment is both the bonding to the profession and the role, as well the enthusiasm toward the assigned tasks and responsibilities. It is the core attitude that provides a physical, mental and emotional connection to the due work.

Optimism

Optimism is an essential skill for professional development and success especially in the times of uncertainty and change. It's mindset shaping and influencial to challenges and opportunities approaching.
